In his captivating memoir, *Go Slow, Be Careful*, Ian Marshall shares his extraordinary journey of overcoming adversity and discovering the power of resilience.

Marshall's story begins in his childhood, where he faced challenges that would shape his life forever. Born with a rare genetic disorder, he was told that he would never walk or talk. But through sheer determination and the love of his family, Marshall defied the odds and learned to live a full and active life.

As a young man, Marshall embarked on a daring adventure that would test his limits and change the course of his life. He set out on a solo expedition

to cross the treacherous Darien Gap, a remote and unforgiving jungle that separates Panama from Colombia. Along the way, he faced countless dangers, including venomous snakes, malaria, and hostile terrain.

But through it all, Marshall never gave up. He relied on his resilience, his determination, and the kindness of strangers who helped him along the way. His journey became a testament to the human spirit's ability to overcome adversity and achieve the impossible.
